

Press Ctrl Alt Del (Canc in Italy) to reboot the system.

This is a political street-sticker action made up of four stickers glued to the walls of the city.

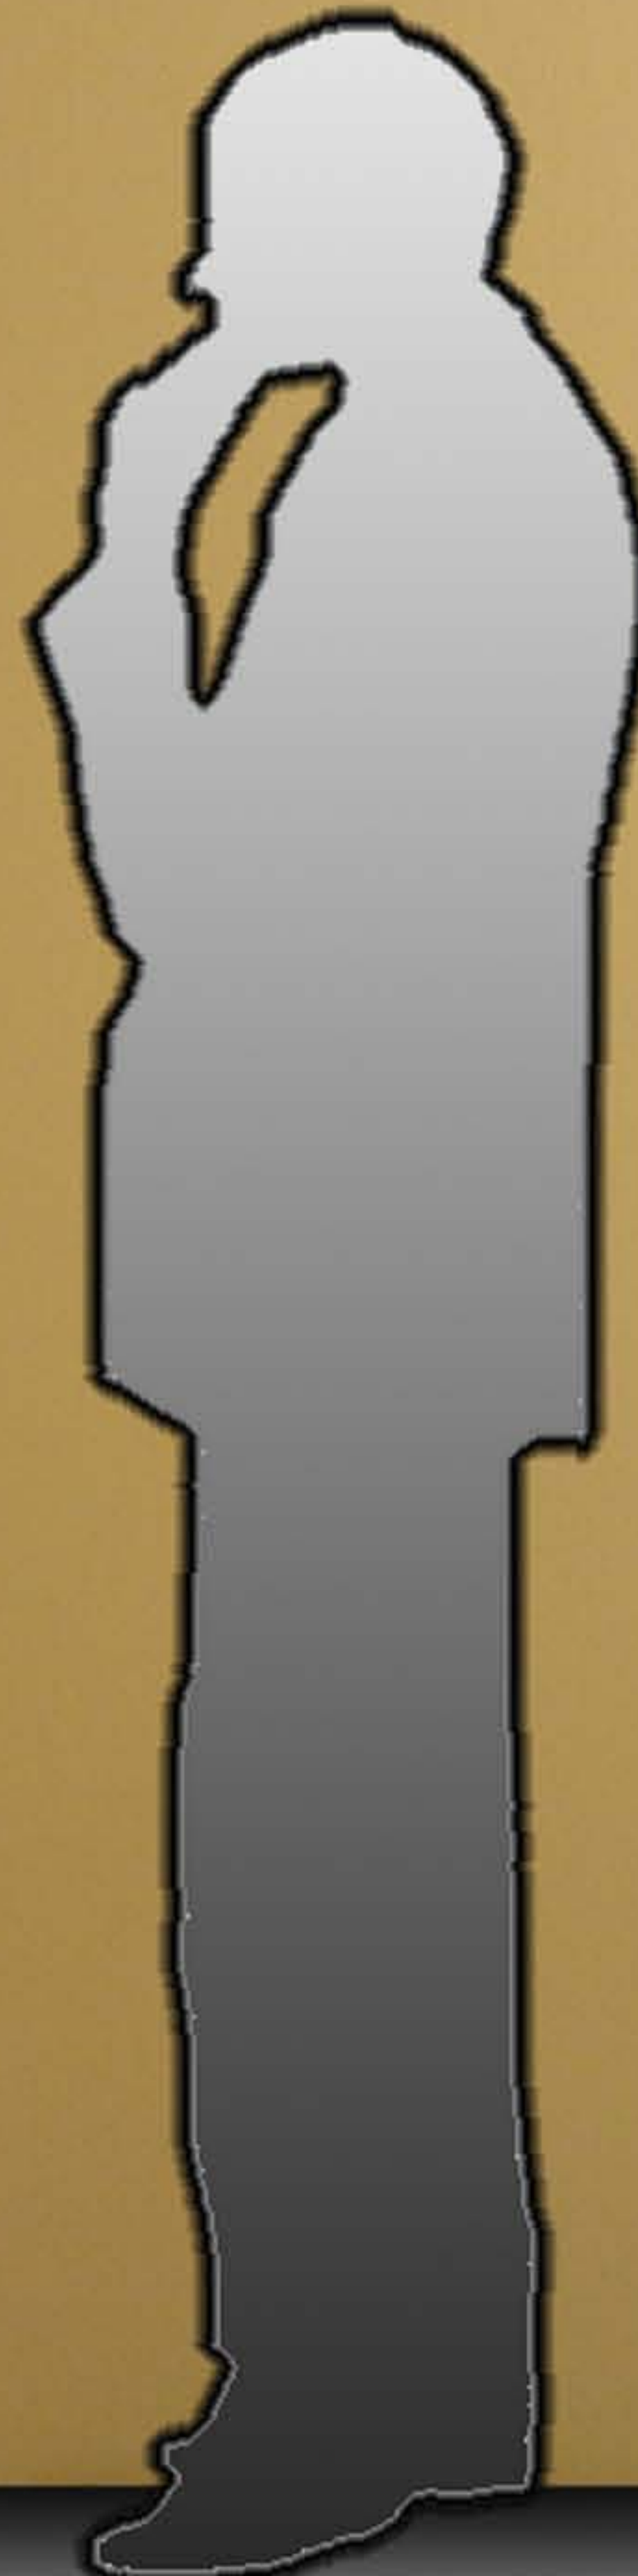

To reboot the system you don't need ancient ideologies or violent revolutions, but you must have to press the three keys together !!

Unfortunately, alone you can't do it, because of the distance between them.

I invite all of you to stamp the three keys (in A3 or A4 size) and to attach them - please: keep the original proportions and distance, and attach also the sheet with the instructions.

I will appreciate photographs of your urban artwork
